Golden Wedding. Last Friday, May 8, was the fiftieth anniversary of the marriage of our old and wellknown citizens, Rey, George A. Breunig and his estimable wife.

Mr. and Mrs. Breunig were born in Germany, the first on March 30, 1810, and the latter April 26, 1813, and came to this countay at the ages of twenty-two and eighteen,

respectively. Mr. Brennig formed the acquaintance of his wife, whose maiden name was Catharine Young, at Detroit, Mich., where, on May 8, 835, they were united in matrimony by Rev. Mr. Cleveland, of the Presbyterian Church. About a year after their marriage they united with the Methodist Episcopal Church, and in 1840 Mr. Breunig was or dained minister in that church in German work. He was in active service for about thirty five years, and is a member of Central German M. E. Conference.

Seven children were born to them, two of whom are still living, George T. and Mary Brening. They have six grand-children, two by late Charles Traub, and four by George T.

and Augusta Brening. Mr. Brening and family came to this city in 1854, and have been residents, with exception of four years, ever since; he had charge of the German M. E. Church in tals city two years, and the balance of the time he served as Presiding Elder, and is one of the pioneer ministers in the German Metho-

The anniversary was celebrated at the German M. E. Church, corner New York and New Jersey streets, in the presence of a very large audience. Rev. G. J. Schaal, of the First German M. E. Church, Rev. Henry Wulzen, of the Second German M. E. Church and Rev. A. Marine, of the Central Avenue M. E. Church, delivered congratulatory speeches. George A. Albright, of the First Church, made a few happy remarks and, on behalf of the many friends of the aged couple, presented them a handsome gift as

mark of their esteem, etc. The church was handsomely decorated with flowers, etc., the display being made by Henry Hilker, the florist. A particularly pretty floral piece was a horse shoe made of handsome cut flowers, fastened to an easel of old gold color, and at the base were the figures "1835-85" in red buds. The design there. attracted a great deal of favorable attention. They had a very pleasant time, and the occasion will be long remembered by all who were present. Mr. and Mrs. Brunig still enjoy fair health, and it is the sincere and hearty wish of their family and many friends that they may live to celebrate their diamond wedding.

Boston in Winter. Mrs. Mary A. McGregory, well-known to a large circle of friends in this city, entertained a goodly company at Plymouth Institute on Wednesday evening by recounting the expa-

riences of her winter's visit in Boston. Those who listened felt that she had learned the art of using time well, and that "the best where one could bring to the friends who remained behind so many good words and tell them in such a smooth and renned style

This was the first utterance of a lying slander which it took Poe's friends five and twenty years to

efficiently contradict to the world. "Mr. Stoddard goes on to sneer at Poe's career at the scademy at Charlottsville. This is another slander. I have in my possession letters from the President and Secretary of that institution testifying to the excellence of Poe's conduct and abilities while

MORE REPUTATIONS. "In a word, Mr. Stoddard slanders Poe from end to end of the statement he makes concerning his recollections of Pas. He sneers at Poe as poor, and as being demoralized by 'drink, debt and opium.' To ne poor is no shame, and as for the latter assertion it is simply a statement of what is not true. Poe was not suffering from the effects of liquer, I most emphatically declare when he was brought to the hospital on the day preceding his death -October 8, 1849. As for the snear at his parentage in being the 'son of players'. the ssertion is not strictly true, for his father never was really a professional actor; but, even were the statement true, it would carry no shame. As for the charge that he was a liar, the appellation applies to those who make this untruthful allegation. Seldom has it been sought to tarnish a great name

mends cions slander as are the so-called reminiscences of Poe by Mr. R. H. Stoddard." THE parishioners of Rev. George Hepworth feel themselves aggrieved that the responsibilities of his position as editor-in chief of the New York Hers'd leaves him no time for par chial visits. A church meeting is to be held to consider the subject.

"This March weather in May," said a merchant, the other day, "has played havor with diy goods lobbers and other branches of trade." There is little doubt but that the unseasonable weather has curtailed trade to a great extent this week. Groceries have displayed considerable animation, and leading staples are firmly held. Sugars are especially strong. The large export movement in that staple gives great confidence to holders, and further advances are expected. Dried fruits show more activity. Fish continue quiet. Dairy products remain dull and weak.

Wheat-Local markets continue firm, both in tone and prices. Quotations at other points are all higher, and the closes met a firm feeling and active demand all round. Local futures dull. Receipts only fair. New York at noon close was 2c higher, Baltimore 11/2c stronger, and Chicago has advanced 1%c from yesterday's quotations. Corn-Like wheat is active and in good demand. All quotations are firm and higher. Receipts are small and futures dull. New York is 1/2 higher, and Baltimore and Chicago steady. Oats-Very firm, and under light receipts are in

active demand at full quotations. LIVE STOCK.

an apparent strong revival of speculation based upon the unfavorable crop outlook. After the sub idence of the foreign war talk prices fell off and for a time speculation lagged, traders apparently hesitating which way to turn. There was large "shore" selling of wheat under 900 for June in the apparent belief that values had been becomed solely on war talk, but the recent had recent bad reports from the winter wheat region has apparently developed a strong bull movement, and the laying has been large both ou local and outside account. The die options in wheat to day reached a point within ) to of the highest prices current during the period when war talk overshadowed other considerations, and closed firm within the of outside figures. The May report of the Department of Agriculture reducing the probable winter wheat yield 120,000,000 bushels as compared to last year was one of the causes lending strength to today's trading, while it was claimed that the reports from the States made the outlook altogether worse. Foreign advices have quoted wheat quiet and steady. Corn ruled firm, sympathising more or less with wheat, and closing he higher than yesterday.
